In case of admission, the registration date will be **July 27th 2026**. If you formalize the registration, the recognized credits will be incorporated into your file. According to current regulations, 25% of the value of the credit must be paid

for recognized credits. You will be exempt from payment in the case of recognition of basic credits, if your original studies were completed at the UPV.

In addition to the application submission period established in the academic calendar of each course, people who prove to be **victims of gender violence** may submit the application at any time during the course. In these cases, admitted people may join the grade in which they have obtained a place at any time during the course.

It is very important that you know the [Progress and Permanence regulations](#) of this University.

4. APPLICATION FOR ADMISSION

The application is made through the **electronic form** available [here](#) (the link will only be available within the application period).

To begin the process it is necessary to access with a password. **If you are a UPV student, it is the same one with which you access to your intranet.**

If you do not have a password, the first step is to request it through the previous link in **Request password and identifier. Without the password you cannot make the request.** Please note that documents and resolutions will be issued with the first and last names provided, so you must indicate your full name. Once you request it, you will receive it by email at the address provided, check that you have entered it correctly and remember to also stay alert for spam. The processing of your password request is **not immediate, it is managed during business hours.**

Password assignment is only guaranteed until 2:00 p.m. (Spanish time) on the last day of submission of Admission applications.

If you do not receive it within the indicated time, contact the Student Service - Undergraduate Student Unit through the email sestu.grado@upv.es

Once you have your password, you will be able to access the Admission Application from the electronic form, **select Application form (I already have a password and identifier)**, and identify yourself.

On our website you have at your disposal some [help manuals](#) to make the request.

Applications in which the applicant's status as a **victim of gender violence** is proven will be admitted in any case, provided that they have obtained a minimum of 30 recognized ECTS, without these admissions counting for the purposes of the admission limits approved by the Governing Council in the corresponding degree.

IMPORTANT: In order for your Application to be admitted for processing, it is an **essential requirement** that, once you have completed this first step of filling out the Admission Application, you continue with the second step, which is the Recognition Request (**Section 9. Recognition Request**).

5. APPLICABLE FEES

You can consult [here](#) the public fees of the academic and complementary university services applicable for the 2026-2027 academic year, they are those that appear in Decree 101/2024, of August 2 (DOGV 08/12/2024), and modifications.

Students who provide studies completed abroad (**for the application for recognition of credits**) or do not have resident status in Spain (**for registration in the case of admission**) are subject to the following fees:

5.1. IF STUDIES CARRIED OUT ABROAD ARE PROVIDED

In accordance with the Fee Decree of the Department responsible for Education, the study of the **application for recognition** for providing foreign studies entails a fee, which currently amounts to €143.73. This rate is applied for each of the Undergraduate Degrees for which you are applying for a place. In these cases, the application will generate a receipt for said amount (**three days after confirming the request for credit recognition**), you will receive an email informing you of this so that you can proceed with payment, and once paid, the study of recognition can begin.

This receipt can be paid in the following ways:

- **UPV students**, the application will generate a receipt, for payment 'in cash' or 'TPV', through your intranet.

- **Non UPV students**, a receipt will be generated and you can pay it from your intranet, which you can access with your password in the Virtual Secretary's Office - Information - Receipts section, by secure payment with a credit card (TPV) or by printing the receipt and paying it at a CaixaBank branch in Spain. There is also the possibility of paying through the Flywire platform, which is useful for international students who do not have international payment enabled with their card, as it allows you to pay securely, from any country, any bank and in your own currency. This [informative video](#) explains in one minute how it works. This platform is not enabled for payments from Spain.

It is not necessary to provide proof of payment, but it is advisable to keep it in case it has not been duly uploaded to the application, in which case you will be required to do so.

The fee is a single fee for the whole set of subjects requested that include foreign studies in the application for recognition, i.e., a fee will not be generated for each subject requested, but a single fee for the whole set of subjects requested in a degree.

This fee cannot be refunded, as the study is carried out by the university regardless of the result, even if the required documentation is not submitted on time.

Each document (specified in the sections indicated above: identification document, certificate from the university of origin, syllabus, language level accreditation, responsible statement, etc.) must be **uploaded in a separate file from the rest** (the legalisation and translation, if applicable, may be included in the same file, together with the corresponding document), regardless of the number of pages it contains.

At any time, the university may require the student to present the original documentation on paper for verification purposes, with the obligation to provide it. The lack of veracity of the information or the falsification of the documentation submitted will lead to the invalidity of all the administrative acts issued on the basis of this information or documentation, without prejudice to the criminal or administrative liability that may arise from this circumstance.

In any case, **admission is conditional upon verification of the documentation** that justifies compliance with the access and admission requirements.

7. OFFICIAL TRANSLATION INTO SPANISH OF THE DOCUMENTATION

8. PROCEDURE FOR THE LEGALISATION OF OFFICIAL ACADEMIC DOCUMENTS (DEGREE, ACADEMIC CERTIFICATIONS) ISSUED ABROAD

Legalisation is the procedure by which a foreign public document is made valid, verifying the authenticity of the signature on the document and the quality with which the authority signing the document has acted. It is essential that a degree or an academic certificate be 'legalised' in order for it to be valid in Spain.

The **'legalisation'** process must be carried out in the country that issued the degree and the academic certification, and therefore it is different in each country of origin. At the end of the process, the document can be recognised (identity and authority of the signatory) by the Spanish authorities.

Legalisation is not required for original documents issued in Member States of the European Union, signatories of the agreement on the **European Economic Area or bilateral agreements with the European Union**:

- Member States of the European Union: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain and Sweden.
- Signatory States to the Agreement on the European Economic Area: Iceland, Liechtenstein and Norway.
- Switzerland, by bilateral agreement with the European Union.

In all other cases, academic documents issued abroad that are to be valid in Spain **must be duly legalised**, in accordance with the **following conditions**:

- **Academic documents issued in countries that have signed [the Hague Convention](#) of 5 October 1961.** A single legalisation or **'apostille'** issued by the competent authorities of the country is sufficient. The apostille can only be issued by a competent authority designated by the state from which the document originates.
- **Academic documents issued in other countries: they must be legalised through diplomatic channels.** For this purpose, the generally established procedure is to present the documents in correlative order to the following bodies:
 1. At the Ministry of Education (or competent ministry) of the country of origin, for the recognition of the signatures appearing on the original document.
 2. At the Ministry of Foreign Affairs of the country where these

documents were issued, for the legalization of the recognition of signatures made at the Ministry of Education.

3. At the diplomatic or consular representation of Spain in the country of origin, for the recognition of the signature of the previous legalization.

9. REQUEST FOR RECOGNITION

To carry out the admission study, you must meet the minimum requirement of obtaining the **recognition of at least 30 credits** in the studies you wish to study (**Section 2. Minimum requirements for Admission**). Applications for admission that meet the above requirement are ordered and prioritised according to a scale that you can consult on the [Student Services](#) website and which may vary depending on the degree programme.

For admission by this procedure you can only provide as a merit for credit recognition applications, the subjects passed in the Study Plan of the Degree from which you are applying to transfer your transcript. However, if you obtain a place, once you have enrolled in your destination studies, you can apply for credit recognition by providing other merits: higher studies, other university studies, your own qualifications or professional experience.

The application must be made using the **electronic form** available on the link **Application for Admission (Section 4. Application for Admission)**. It is **important** to remember that it is **essential** that you complete the **Application for Recognition** in order for the Application to be accepted for processing. Applications submitted without this requirement will be rejected.

When making the application, it is compulsory to fill in several applications for the recognition of credits (for which at least 30 credits are recognised) through the 'Recognition Management' section. In the previous sections you can find the documentation you need to provide and the corresponding requirements.

For more information on how to apply for recognition, please consult the

following URL:

10. ADMISSION AND REGISTRATION

The results of the admission application will be published before **May 29th 2026**:

- If you have been admitted, you will receive an admission resolution by post with the recognitions you have obtained, and you will be previously summoned during the month of July to formalise your enrolment in the degree on **July 27th 2026**. If you do not [self-enrol](#) on the assigned date, you will be considered to have given up your place and it will be awarded to the next person in the order of the waiting list, if there is one.

Applications for admission submitted by **victims of gender violence** may be resolved at any time during the course.
